

| Type | Agency/Organization | Local Level | Description of Authority/Interests | Website |
|--------------------------|---|-----------------------------|---|---|
| Agricultural Association | Agriculture & Land-Based Training Association | | Our mission is to advance economic viability, social equity and ecological land management among limited-resource and aspiring farmers. We work to create opportunities for family farms while providing education and demonstration on conservation, habitat restoration, marketing and whole farm planning. | http://www.albafarmers.org/ |
| Agricultural Association | Agricultural Water Quality Coalition | | Agricultural Water Quality Coalition is a partnership of Central Coast growers organized through their respective county Farm Bureaus. Established by the California Farm Bureau, six Central Coast counties receive grant monies to fund research and monitoring of agricultural water quality effects. The Coalition is working to identify local water quality threats and learn about economically viable water quality protection practices. The various county Farm Bureau program coordinators assist watershed groups to implement these practices. | http://www.agwaterquality.org/ |
| Agricultural Association | Community Alliance with Family Farmers | | The Community Alliance with Family Farmers advocates for California family farmers and sustainable agriculture. | http://www.caff.org/ |
| Agricultural Association | Farm Bureau | | Farm Bureaus are organized on a county, state, and national level with the county Farm Bureaus serving as the core of the organization. Santa Cruz, Monterey, San Benito and Santa Clara Counties each have their own Farm Bureau. The Farm Bureau is a voluntary, nongovernmental, nonpartisan organization of farm and ranch families seeking solutions to the problems that affect their lives, both socially and economically. The Central Coast Agricultural Water Quality Coalition is the local Farm Bureau partnership that works with growers within the Pajaro River watershed. | http://www.fb.org/ |
| Agricultural Association | | Monterey County Farm Bureau | Monterey County Farm Bureau is the private, nonprofit association of farmers and ranchers throughout this California county, located on the Central Coast. | http://www.montereycountyfarmbureau.org/ |

| Type | Agency/Organization | Local Level | Description of Authority/Interests | Website |
|--------------------------|---------------------|--------------------------------|---|---|
| Agricultural Association | | Santa Clara County Farm Bureau | We are a non-profit organization dedicated to promoting and preserving farming and ranching in the Santa Clara Valley. We believe that farming brings economic and environmental benefits to all residents of the Santa Clara Valley. The Santa Clara County Farm Bureau's key programs are political involvement, education and member development. One of our largest programs, the Ag Water Quality Program, was recently given the highest environmental award in the state, the Governor's Environmental Leadership Award. | http://www.sccfarmbureau.org/ |
| Agricultural Association | | Santa Cruz County Farm Bureau | The Santa Cruz County Farm Bureau is a vital part of our community, providing an important voice for the Santa Cruz County and Pajaro Valley agriculture industry. We are continually involved in local land use and transportation issues as well as opportunities to provide educational support through scholarships and school programs. The Santa Cruz County Farm Bureau helps insure that the agriculture industry here remains viable, and continues to generate financial security for the entire community. | http://www.sccfb.com/ |
| Agricultural Association | | San Benito County Farm Bureau | This land trust is devoted to providing financial options to landowners in order to protect the agricultural heritage of San Benito County | http://www.cfbf.com/counties/?id=35 |

|------------|------------------------------------|-------------------------------|---|---|
| Land Trust | | Monterey County Ag Land Trust | Founded on August 1, 1984 the Ag Land Trust is a public benefit corporation created with the intent to preserve farmland and benefit the farmers who make their living from that land | http://www.aglandconservancy.org/ |
| Land Trust | The Nature Conservancy | | TNC is a leading international, nonprofit organization dedicated to preserving the diversity of life on Earth. Their mission is to preserve the plants, animals and natural communities that represent the diversity of life on Earth by protecting the lands and waters they need to survive. TNC is currently working on projects within the Pajaro River watershed that promotes private lands conservation and other conservation practices. They work with landowners, communities, cooperatives and businesses to establish local groups that can protect land. | http://www.nature.org/ |
| Land Trust | Land Trust of Santa Cruz County | | The land trust is a community-based nonprofit organization that works cooperatively with land owners, government entities, and other organizations to protect and manage lands of significant value. Their primary focuses are protecting prime agricultural lands, protecting lands with significant habitat value, and providing effective stewardship of lands already protected. | http://www.landtrustsantacruz.org/ |
| Land Trust | San Benito Agricultural Land Trust | | This land trust is devoted to providing financial options to landowners in order to protect the agricultural heritage of San Benito County. The land trust can protect land permanently and directly by accepting donations of conservation easements designed to meet the individual needs of landowners. As a non-profit, tax-exempt organization, the Trust is funded through membership, donations and grants. | http://sanbenitoaglandtrust.org/ |
| Land Trust | Silicon Valley Land Conservancy | | The Silicon Valley Land Conservancy is a nonprofit entity formed to preserve and protect the remaining open space in Silicon Valley. | http://siliconvalleylc.org/ |

| Environmental | Coastal Watershed Council | | <p>The Coastal Watershed Council is a nonprofit organization committed to the preservation, protection and management of coastal watersheds through establishment of community-based watershed stewardship programs, education and community outreach. Serving as watershed advocates, the Council promotes the health of these ecosystems through stewardship, advocacy and proper management practices. The Coastal Watershed Council was formed in response to the declining health of the watersheds of the Monterey Bay region. Our mission is simple: we would like to restore the watersheds of our region and teach our residents how to become stewards of their local creeks and streams.</p> | <p>http://www.coastal-watershed.org/</p> |
| Environmental | Planning and Conservation League Foundation (PCLF) | | <p>The Planning and Conservation League Foundation mission is to ensure that California continues to be an attractive, livable, and equitable state by engaging in cutting-edge environmental public policy research, and educating and empowering local communities to understand and participate in local and state environmental decision making processes. The Planning and Conservation League Foundation also produces publications that educate the public about environmental challenges in the areas of planning, natural resource conservation, environmental protection, clean air, clean water, sustainable energy policies, and environmental justice.</p> | <p>http://www.pclfoundation.org/</p> |

|-------|--|--|---|--|
| State | | Central Coast Regional Water Quality Control Board (RWQCB) | <p>The Central Coast RWQCB is a regulatory extension of the State Water Resources Control Board. The Central Coast RWQCB coordinates and controls the quality of water in its region through the protection of beneficial uses, the development of water quality objectives to protect the beneficial uses, and implementation planning to accommodate the water quality objectives. This entity was established by the Porter-Cologne Water Quality Control Act (1969), which became Division Seven ("Water Quality") of the State Water Code. The State Water Code establishes the responsibilities and authorities of the nine RWQCBs (previously called Water Pollution Control Boards) and the State Water Resources Control Board (SWRCB). The federal Clean Water Act (Public Law 92-500, as amended) provides for the delegation of certain responsibilities in water quality control and water quality planning to the states. Where the Environmental Protection Agency (EPA) and the SWRCB have agreed to such delegation, the Regional Boards implement portions of the Clean Water Act, such as the National Pollutant Discharge Elimination System (NPDES) program and toxic substance control programs .</p> | <p>http://www.swrcb.ca.gov/rwqcb3/</p> |
| State | California Department of Fish and Game | | <p>The Department of Fish and Game maintains native fish, wildlife, plant species and natural communities for their intrinsic and ecological value and their benefits to people. This includes habitat protection and maintenance in a sufficient amount and quality to ensure the survival of all species and natural communities. The department is also responsible for the diversified use of fish and wildlife including recreational, commercial, scientific and educational uses.</p> | <p>http://www.dfg.ca.gov/</p> |

| Type | Agency/Organization | Local Level | Description of Authority/Interests | Website |
|------------------|--|-------------|---|---|
| State | California Department of Water Resources | | The California Department of Water Resources (DWR) is a department within the California Resources Agency. The Department of Water Resources is responsible for the State of California's management and regulation of water usage. | http://www.dwr.water.ca.gov/ |
| State | California Coastal Commission | | The goal of the Coastal Commission is to protect, conserve, restore, and enhance environmental and human-based resources of the California coast and ocean for environmentally sustainable and prudent use by current and future generations. The Coastal Commission, in partnership with coastal cities and counties, plans and regulates the use of land and water in the coastal zone. Development activities, which are broadly defined by the Coastal Act to include (among others) construction of buildings, divisions of land, and activities that change the intensity of use of land or public access to coastal waters, generally require a coastal permit from either the Coastal Commission or the local government. | http://www.coastal.ca.gov/ |
| State | State Coastal Conservancy | | The California Coastal Conservancy works with other groups to protect, conserve, restore, and enhance environmental and human-based resources of the California coast and ocean for environmentally sustainable and prudent use by current and future generations. | http://scc.ca.gov/ |
| Special District | Natural Resource Conservation Service | | NRCS's natural resources conservation programs help people reduce soil erosion, enhance water supplies, improve water quality, increase wildlife habitat, and reduce damages caused by floods and other natural disasters. Public benefits include enhanced natural resources that help sustain agricultural productivity and environmental quality while supporting continued economic development, recreation, and scenic beauty. | http://www.nrcs.usda.gov/ |

|------------------|---|---------------------|--|---|
| Special District | Resource Conservation District | | California RCDs are special districts organized under the state Public Resources Code, Division 9. The RCDs in the Pajaro Watershed are the Santa Cruz RCD, Monterey County RCD, San Benito RCD and Loma Prieta RCD. Each district has a locally elected or appointed volunteer board of directors made up of landowners in that district. Interests of the RCDs which relate to water management include water quality, wildlife habitat restoration, soil erosion control, and conservation education. | http://www.carcd.org/ |
| Special District | | Santa Cruz RCD | | http://www.rcdsantacruz.org/ |
| Special District | | Monterey County RCD | | http://www.rcdmonterey.org/ |
| Special District | | San Benito RCD | | http://www.rcdsanbenito.org/ |
| Special District | | Loma Prieta RCD | | http://lomaprietarc.org/ |
| Special District | Monterey County Water Resources Agency (MCWRA) | | MCWRA is a special district formed to manage, protect, and enhance the quantity and quality of water and provide specified flood control services for Monterey County, and to be a leader in efficient, innovative, and equitable water resources management for the County. As a County water agency and stakeholder, MCWRA has an interest in flood prevention and water supply management of the lower Pajaro River that falls within its jurisdiction. | http://www.mcwra.co.monterey.ca.us/ |
| Special District | Central Coast Resource Conservation and Development Council, Inc. | | The Central Coast Resource Conservation & Development Council serves South Santa Clara, San Benito, Santa Cruz, Monterey, San Luis Obispo, and Santa Barbara Counties. The council's activities focus on agritourism, steelhead habitat enhancement, water quality education, coordinated resource management and planning (CRMP) coordination and permit streamlining. | http://www.centralcoastrcandd.org/pajaro.htm |

| Type | Agency/Organization | Local Level | Description of Authority/Interests | Website |
|----------------------------|--|--------------------------------|---|---|
| Special District/Community | | Pajaro River Watershed Council | Efforts were initiated in 1994 by the Central Coast Resource Conservation and Development Council and the Association of Monterey Bay Area Governments to promote better management of the Pajaro River watershed and improve coordination between agencies and individuals with interest and | http://www.centralcoastrcandd.org/pajaro.htm |
| Special District | Association of Monterey Bay Area Governments (AMBAG) | | AMBAG was organized for the permanent establishment of a forum for planning, discussion and study of regional problems of mutual interest and concern to the counties and cities in Monterey, San Benito, and Santa Cruz Counties; and for the development of studies, plans, policies and action recommendations. | http://www.ambag.org/ |
| Special District | FPA (Flood Protection Authority) | | PRWFPA was established in 2000 by the State of California Assembly Bill 807 to identify, evaluate, fund, and implement flood prevention and control strategies in the Pajaro River watershed, on an intergovernmental basis. Since the Pajaro River watershed covers an area within four counties (Santa Clara, San Benito, Santa Cruz, and Monterey) and four water districts (Santa Clara Valley Water District; San Benito County Water District; Santa Cruz County Flood Control and Water Conservation District, Zone 7; and Monterey County Water Resources Agency), the PRWFPA is comprised of one representative from each of the eight interested agencies. The PRWFPA is a governing body through which each member organization can participate and contribute to finding a method to provide flood protection in the watershed and promote general watershed interests. A further goal is to identify and prioritize strategies and projects that will provide multiple benefits, such as water supply, groundwater | http://www.pajaroriverwatershed.org/ |
| Special District | South County Regional Wastewater Authority (SCRWA) | | South County Regional Wastewater Authority is the regional wastewater authority for South Santa Clara County, primarily serving the Cities of Gilroy and Morgan Hill. SCRWA has partnered with the Santa Clara Valley Water District to expand water recycling in southern Santa Clara County. | http://www.ci.gilroy.ca.us/cityofgilroy/city_hall/community_development/bles/industrial_waste/default.aspx |

|------------------|--|-------------|--|---|
| Special District | San Benito County Water District (SBCWD) | | SBCWD is a special purpose district formed under State Law pursuant to the San Benito County Water District Act. As a water conservation and flood control district, the SBCWD mission is to preserve the economic and environmental wealth and well-being of San Benito County through the control, management and conservation of waters and the provision of water services in a practical, cost-effective and responsible manner. The SBCWD is a CVP contractor and receives water from the San Felipe Division facilities through the Pacheco and Hollister Conduits. | http://www.sbcwd.com/ |
| Special District | San Benito Water District: | | It is the mission of the San Benito County Water District to preserve the economic and environmental wealth and well-being of San Benito County through the control, management and conservation of waters and the provision of water services in a practical, cost-effective and responsible manner. | http://www.sbcwd.com/ |
| Special District | Sunnyslope County Water District (SSCWD) | | Sunnyslope County Water District is a water and wastewater management district for a portion of the City of Hollister and the Ridgemark Development in San Benito County. | http://www.sscwd.org/ |

| Type | Agency/Organization | Local Level | Description of Authority/Interests | Website |
|------------------|---|-------------|---|---|
| Special District | Santa Clara Valley Water District (SCVWD) | | SCVWD is a special purpose district formed under State Law pursuant to the Santa Clara Valley Water District Act. SCVWD provides wholesale water supply, stream and watershed stewardship, and flood protection for Santa Clara County. In addition, SCVWD manages the County's groundwater subbasins. The mission of the SCVWD is a healthy, safe, and enhanced quality of living in Santa Clara County through watershed stewardship and comprehensive management of water resources in a practical, cost-effective, and environmentally-sensitive manner. SCVWD is a CVP and State Water Project (SWP) contractor and receives water from the San Felipe Division facilities through the Pacheco and Santa Clara Conduits. | http://www.valleywater.org/Default.aspx |
| Federal | U.S. Fish and Wildlife Service | | The U.S. Fish and Wildlife Service is a bureau within the Department of the Interior. Our mission is to work with others to conserve, protect and enhance fish, wildlife and plants and their habitats for the continuing benefit of the American people. | http://www.fws.gov/ |
| Federal | U.S. EPA - Surf Your Watershed | | Find your watershed and links related to it. Once you locate your watershed, simply click on the first link, "citizen-based groups at work in this watershed," to find a listing of organizations that are working to protect water quality. You may wish to contact one of these groups to find out about cleanups, monitoring activities, restoration projects and other activities. | http://cfpub.epa.gov/surf/huc.cfm?huc_code=1806002 |
| Federal | U.S. EPA Adopt Your Watershed | | EPA's Adopt Your Watershed program challenges you to serve your community by taking part in activities to protect and restore your local watershed. | http://www.epa.gov/owow_keep/adopt/index.html |
| Federal | U.S. Army Corps of Engineers - San Francisco District | | The USACE provides engineering and environmental services throughout the nation. The Corps has plans to implement a flood protection project on the lower Pajaro River. | http://www.spn.usace.army.mil/projects/pajaroriverbasin.html |
